INTRODUCTION AND GENERAL INDEX

- - - - -

HILL DIRECTORY CO., Inc., publishers of Southeastern Directories (publishers of the Wilmington City Directory since 1897), present to subscribers and the general public, this, the 1956 edition of the Wilmington City Directory, which also includes Audubon, Devon Park, Edgewood, Foxtown, Garden City, Hanover Heights, Highwood Park, Idlewild, Long Leaf Hill, Oak Court, Oak Crest, Piney Woods and Winter Park.

Confidence in the growth of Wilmington's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Wilmington to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty co-operation of the business and professional men and residents, the publishers feel that the result of their labor will meet with the approval of every user, and that the Wilmington Directory will fulfill its mission as a source of authentic information pertaining to the community.

Five Major Departments (Each department beginning with Page 1)

The five major departments are arranged in the following order:--

I. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is the first major department, printed on white paper. This is the only record in existence that shows the name, marital status, occupation and address of each adult resident of Wilmington and vicinity, and the name, official personnel, nature and address of each firm and corporation.

II. THE BUYERS' GUIDE, is the second major department, printed on goldenrod paper, contains the advertisements of leading manufacturing, business and professional interests of Wilmington and vicinity. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a progressive community like Wilmington, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

III. THE CLASSIFIED BUSINESS DIRECTORY is the third major department, printed on canary paper. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

IV. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, on pink paper, is the fourth major department. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the listing of telephone numbers.

H. T. CARROLL & SONS

V. THE NUMERICAL TELEPHONE DIRECTORY, on blue paper, is the fifth major department.

Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a port, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Wilmington and vicinity.

The Wilmington Directory Library

Through the courtesy of the publishers of the Wilmington City Directory, a Directory Library is maintained in the offices of the Wilmington Chamber of Commerce, for free reference by the general public. This is one of more than 700 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

DIRECTORY SYMBOLS AND DESIGNATIONS

IN ADDITION to names and addresses, your City Directory contains much detailed information concerning the people of your community. In order to list this information certain symbols and designations have been developed which enable important statistics to be compressed into the smallest possible space. You will receive far greater benefits from your City Directory if you familiarize yourself with the symbols and what they stand for.

In checking credit applications, in conducting direct mail advertising programs, in planning sales campaigns, in building prospect lines, and in scores of other ways your City Directory will prove of invaluable assistance.

Location

Wilmington, county seat of New Hanover County, is situated in the southeastern part of North Carolina, on the east bank of the Cape Fear River, about thirty miles from the Atlantic Ocean. This distance from the ocean is due to the fact that the Cape Fear River flows from Wilmington in a southeasterly direction. The distance from Wilmington to the ocean, via highway, is only twelve miles. Wilmington is approximately 200 miles from Charlotte, 135 miles from Raleigh, 190 miles from Charleston, S. C., and 265 miles from Norfolk. It is the principal deep-water port in North Carolina, with a 32-foot channel from ocean bar to Wilmington, distance of 30 miles.

Swimming and Beaches

Excellent swimming facilities are available at ten popular ocean beach resorts in the immediate vicinity of Wilmington and at nearby sounds. Beach resorts include Carolina, Wrightsville, Fort Fisher, Kure's, Wilmington, Long, Caswell and Holden's beaches.

Fishing

Fishing is enhanced by the activities of the New Hanover Fishing Club, largest organization of its kind in America. The annual Fishing Rodeo, April 1 through Nov. 30, sponsored by the Southeastern North Carolina Beach Association, offers cash and equipment prizes. The proximity of the Gulf Stream and availability of fishing-party boats make deep-sea fishing a popular sport. Waltonites have a choice of casting from pier, boat, strand or sound.

Camp Le Jeune and Fort Bragg

Camp Le Jeune, a permanent U.S. Marine Corps training base, 50 miles northeast of Wilmington, is considered a local enterprise, for Wilmington serves thousands of enlisted and officer personnel from a week-end recreational and trading center. Thousands of soldiers from Fort Bragg, near Fayetteville, also spend week-ends in Wilmington and at nearby beaches.

Gardens

Nature-lovers thrill to the springtime beauty of the azalea and camellia gardens at Orton and Airlie plantations, and the colorful plants and moss-covered cypress at Greenfield Lake Gardens in the heart of Wilmington. All three are open the year round. Annual tours of outstanding gardens are conducted by the Garden Club. Private estates are visited by special arrangement. The annual Azalea Festival is held annually late in March or early in April.

Landmarks and Historic Ruins

Settled in 1730, Wilmington has many famous historical buildings and landmarks, including British General Cornwallis' Revolutionary War Headquarters; several of the oldest churches in America; the church where Woodrow Wilson worshipped as a youth; the birthplace of Whistler's mother; historic Fort Fisher; Orton Mansion, built in 1725; and Colonial church ruins.

Population Increase

Wilmington's population, within its city limits, increased rapidly between 1940, when it was 33,407, and 1950, when it was 45,043. Present population of New Hanover County is estimated at 70,000, and that of Wilmington is estimated at 55,000.

Industry, Transportation, Trade, Agriculture

The economic life of the Wilmington area within the last few years has been undergoing a material change. This change has been due chiefly to the enlarging

of existing manufacturing plants and the erection of new ones in the immediate territory. Wilmington has become justly famous for the handling and conversion of timber, petroleum, asphalt and fertilizer products; the fabrication of marine boilers, and the manufacture of hosiery, shirts, plush, velour, and paper products.

A recent factor that will add to the industrial life of this area is the new steam generating plant of the Carolina Power & Light Co. now undergoing construction near the city. This new plant not only will assure more electric power than at present is needed for Wilmington, but likewise will make for expansion in other areas of southeastern North Carolina. Plans of the company call for four units eventually, with present construction making possible two additional units. The first two generating units will develop 300,000 horsepower. These two units alone will make available large quantities of power for industrial use for concerns interested in the Wilmington area that might wish to employ electric furnaced and electrical-chemical processes.

The steel shipyard operated during the first World War by the George A. Fuller Co. has been converted into an industrial center. Wilmington now has one of the finest and most efficiently operated systems of private terminals at any Southern port, and the city's principal stevedoring corporation holds the record for all South Atlantic ports for quick dispatch cargo.

The City Hall building at Third and Princess Streets, erected in 1855, with its Corinthian columns, impresses local citizens and tourists alike. For its age of 100 years, it is in excellent condition.

New State Port Terminals, south side of city, on the Cape Fear River

Tobacco is a major product in the life of Wilmington, being grown nearby and shipped through the city's terminals.

With both water and rail transportations thus affording quick hauls and low freight rates, and near the sources of raw materials, Wilmington is a splendid spot for manufacturing industries. Two big railroad systems—the Atlantic Coast Line and the Seaboard Air Line—place the city near the great coal fields and iron-producing zones.

Wilmington is the center of one of the greatest vegetable-producing districts in North Carolina. It produces nearly \$2,800,000 in early crops, bulbs, flowers and truck.

Comparatively few years ago no strawberries were raised except for domestic use; now Wilmington is the center of one of the largest strawberry-growing districts in the South. It is one of the largest lettuce-producing districts also, and a very large vegetable and peanut market (250 growing days per year, and equable rainfall).

Wilmington is the headquarters of the Atlantic Coast Line system.

The Port of Wilmington in Relation to Foreign Trade

Wilmington possesses a fresh-water harbor about thirty miles from the mouth of the Cape Fear River. It is open to navigation on a 24-hour basis, the river being adequately equipped with lights for night navigation. Ice conditions are unknown, and fair weather generally is prevalent. A deep-water channel of 32 feet is provided, insuring safe passage of deep-draft vessels, from the mouth of the river to Wilmington. Satisfactory turning basins are provided for the largest freighters afloat, and vessels from Europe, Latin-America, Africa and ports in other foreign countries call at Wilmington. In addition, there are vessels calling from the West Indies, and there is a projection for intercoastal and Far Eastern services.

Excellent rail facilities, afforded by two major railroads, are available for the satisfactory distribution of import commodities throughout the state of North Carolina and through the interior of the U.S. Wilmington, as a port, also is a focal point for export shipments, not only from North Carolina, but nearby and Mid-Western states. The import and export traffic through the Port of Wilmington is heavy and ever-increasing, which marks a successful port. Large quantities of tobacco, cotton goods, fertilizer materials, lumber products, food-stuffs and other commodities are handled regularly for export. The imports are varied. Vast quantities of petroleum products are shipped regularly into Wilmington for distribution throughout the state. Nitrate materials, sulphur, molasses, sugar, hardwoods, burlap and additional commodities constitute the bulk of the import traffic.

Recently the new facilities of the North Carolina State Ports Authority were dedicated, which are capable of handling three ships of the size of C-2 vessels at one time. The most modern handling equipment is used, and there are transit sheds aggregating 145,800 square feet of space and storage warehouse of 89,100 square feet. These terminals are the most modern of their kind of the

Cattle grazing at Invershiel Farm, in Pencer County, a few miles from Wilmington, demonstrating the ease of having year-'round pasturage for economical production of milk.

Atlantic Seaboard and are properly equipped for the expeditions handling of either truck or rail traffic. The new terminals were constructed at a cost of \$5,500,000, and it is considered that they will be a great asset in influencing future business to and from the Port of Wilmington.

The city has, in addition to the new terminal facilities, some 600,000 more square feet of terminal warehouse space and wharves available, which will accommodate twelve ocean-going ships at one time.

Wilmington is North Carolina's major seaport city and the gateway of the State's commerce and trade. North Carolina is vast in area, larger than New York or Pennsylvania, and almost as large as New England. Wilmington is the natural distributing point for North Carolina and parts of South Carolina and Georgia. The port of Wilmington is the nearest Atlantic port to the Ohio gateways, and nearer Cincinnati than the competitive Port of Charleston by 15 miles.

Commerce on the Cape Fear River has shown spectacular growth at and below Wilmington. In 1948 the tonnage handled through the port amounted to 2,975,880, and by 1953 this had reached 3,800,000 tons.

The port is being located south of Hatteras, vessels are assured safety when operating from Latin-America and other countries south of the U.S., and it is in a very strategic position.

Wilmington is rapidly becoming an important port as far as inland waterway traffic is concerned, and is being served regularly by barge lines which operate from Northern points as well as those to and from Florida ports.

Wilmington is the terminus of six major highways of North Carolina's splendid good roads system, and the city also is an important point on the Ocean Highway extending from Portland Maine, to Miami, Fla.; the Calhoun Highway from Athens, Ga.; the Dixie Highway from Memphis, Tenn., to the ocean of Wilmington, and U.S. Routes 17, 74, 76, 117 and 421.

Salt and fresh water in the Wilmington area provide unparalleled sources of recreation and enjoyment. 100 recorded sailfish catches off Wrightsville Beach, for a three-week period, during the summer of 1954 was quite a record.

Resort activities make for a happier life and a stronger economy for the New Hanover County area.

The Wilmington-New Hanover airport is one of the most modern and efficient to be found between New York and Miami. It has two intersecting paved runways of 7,000 feet in length, and a cross runway of 10,000 feet. It accommodates jet aircraft as well as modern commercial aircraft operated by Piedmont Air Lines and National Airlines on scheduled flights. The entire airport area is 1,200 acres, with a modern administration building. Bluthenthal Field itself is serviced by the latest ILS equipment. The U.S. Weather Bureau office is located at the field, and reports are available on a 24-hour basis. Transient aircraft and aircraft of the Armed Services are always welcome to use this ultra-modern facility.

An Ideal Place to Live

Wilmington has a wonderful climate; no extremes of heat or cold. Average summer temperature, 78 degrees; average winter temperature, 48 degrees. The normal rainfall is 53 inches; average annual clear days, 132 (New York rainfall, 44 inches; clear days, 118. New Orleans, rainfall, 57 inches; clear days, 109). The mild climate and diversified opportunities make this city and section a haven for homeseekers.

Greenfield Lake, a municipal park and garden, open to the public at all times. This is one of the most beautiful attractions in the South, boasting of over more than one million azaleas in bloom during azalea season.

Wilmington is a city of fine streets and parks, attractive homes, beautiful churches and modern schools, in a county netted by good roads. It is a place of up-to-date amusements, with some of the best beach resorts on the South Atlantic Coast within thirty minutes' ride of the city. Wrightsville Beach, eight miles east of the city, is an island resort of fame and renown. It is connected with the mainland by excellent half-hour bus service and causeway to Harbor Island just west of the beach. Carolina, Wilmington and Fort Fisher Beaches, south of the city, are mainland resorts with many delightful attractions. Wilmington's five fine beaches are among the only mainland resorts on the North Carolina coast where one can drive directly to the ocean in an automobile. The five beaches attract approximately 100,000 visitors every summer.

The Wilmington Chamber of Commerce, P. O. Box 1698, welcomes the opportunity of answering questions about the city, the county and the fine beaches. Write the Chamber of Commerce for any information needed. You are assured of prompt, cordial and co-operative service, geared to a program of community development.

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. *Insist on being well represented in its pages.*

CAUTION

Pay no money in advance to itinerant Directory canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

A FOR YOUR THOUGHTS!

There's one  that buys more than most

 --and that's the penny you spend for electric service! For instance, you can 

six large rugs for one cent's worth of electricity.

And just one penny buys the power to wash three

of laundry!

Like to sew? You can  for five hours

on one  worth of electric power. In fact, every time you pay your electric bill  you're paying

for a  of comfort, work-and-time-saving help, and pleasure. Yes, electric service is a real friend

. . . always ready at the flick of a  and so

low in cost that you must agree: It's the Biggest

Bargain in the family budget!

WHY A *Buyers'* *Guide?*

The Buyers' Guide is a necessary supplement to the regular listings; it is good City Directory information . . . EXTENDED.

*It is customary to include a Buyers' Guide in the City Directory because:

It gives business firms the opportunity to elaborate upon a description of their products and services impossible in the limited space of regular Alphabetical and Classified listings.

**Don't Contribute
to
Counterfeiters
KNOW YOUR
MONEY!**

**Don't Be Fooled
by
Forgers
KNOW YOUR
ENDORSERS!**

The Government never redeems counterfeit money!

1. **KNOW YOUR MONEY!** Study the bills you receive so as to become familiar with the workmanship on them, especially in the portraits.

2. **COMPARE** a suspected bill with a genuine of the same type and denomination. Observe these things:

PORTRAIT *Counterfeit*—Dull, smudgy, or unnaturally white, scratchy; oval background is dark, lines irregular and broken. Portrait merges into the background.

Genuine—Stands out distinctly from the oval background. Eyes appear lifelike. Background is a fine screen of regular lines.

COLORED SEAL *Counterfeit*—Saw-tooth points around rim are usually uneven, broken off.

Genuine—Saw-tooth points around rim are even and sharp.

SERIAL NUMBERS *Counterfeit*—Poorly printed, badly spaced, uneven in appearance.

Genuine—Figures firmly and evenly printed, well spaced.

PAPER *Counterfeit*—Generally has no silk threads, but these may be imitated by very small red and blue ink lines.

Genuine—Printed on distinctive paper in which very small red and blue silk threads are scattered. The silk threads are not always noticeable on bills that are badly soiled or worn.

3. **RUBBING** a bill on a piece of paper will *not* prove it is genuine or counterfeit; ink can be rubbed from good bills as well as bad ones.

4. **CONSULT** an experienced money-handler or police officer to make sure, if you are still in doubt, whether a bill is genuine or counterfeit.

5. **REMEMBER, NOT ALL STRANGERS ARE COUNTERFEITERS, BUT ALL COUNTERFEITERS ARE LIKELY TO BE STRANGERS.**

This information is reprinted from the U. S. Secret Service 32-page booklet, "KNOW YOUR MONEY", which tells how to detect counterfeit coins and bills and how to guard against losses from forged Government checks. Copies may be purchased for 10c each, or \$7.50 per 100, from the Superintendent of Documents, Government Printing Office, Washington, D. C.

U. S. POSTAL INFORMATION

POSTAGE RATES AND CLASSIFICATION

For Information regarding classification, postage rates, and mailability of domestic mail of all classes, entry and mailing of publications as second-class matter, metered and permit mail, bulk rate mailings of third-class matter, Business Reply Cards and Envelopes, apply at your local post office.

DOMESTIC POSTAL RATES

First-Class

LETTERS: 3 cents for each ounce or fraction of an ounce. (Local delivery same rate.)

POST CARDS or POSTAL CARDS: 2 cents each within prescribed sizes.

BUSINESS REPLY CARDS: 3 cents each; Air Mail, 5 cents each.

BUSINESS REPLY ENVELOPES: Business reply envelopes 1 cent in addition to regular postage. Apply at Post Office for Permit.

Second-Class

NEWSPAPERS AND PERIODICALS (Transient rate): 2 cents for the first 2 ounces, and 1 cent for each additional 2 ounces or fourth class rate, whichever is lower.

Third-Class

(Limit 8 ounces)—On circulars and other miscellaneous printed matter, also on merchandise, 2¢ for the first 2 ounces or fraction, plus 1¢ for each additional ounce or fraction.

On books and catalogs having 24 or more pages; also, seeds, cuttings, bulbs, roots, scions, and plants—2 cents for first 2 ounces and 1½ cents for each additional 2 ounces.

Bulk Rate

For Details Consult Your Local Postmaster

Fourth-Class—(Parcel Post)

The present size and weight limits for fourth class (parcel post) will continue to apply in all cases except for parcels mailed at a first class office for delivery to another first class office in which case the size is limited to 72 inches length and girth, 40 pounds in weight to the local first and second zones, and 20 pounds in weight in the third to the eighth zones. Exceptions to the new size and weight restrictions are:

(1) Baby fowl, live plants, trees, shrubs, or agricultural commodities (not including manufactured products thereof).

(2) Books, permanently bound for preservation, consisting wholly of reading matter or reading matter with incidental blank spaces for students' notations and containing no advertising matter other than incidental announcements of books.

(3) Parcels mailed in the United States, including the District of Columbia, for delivery by any Army or Fleet post office or in any Territory or possession of the United States, including the Canal Zone and Trust Territory of the Pacific Islands, or mailed at any Army or Fleet post office or in any Territory or possession of the United States, including the Canal Zone and Trust Territory of the Pacific Islands, for delivery in the United States, including the District of Columbia, or any Army or Fleet post office or any Territory or possession thereof, including the Canal Zone and Trust Territory of the Pacific Islands.

It is not contemplated that the provisions of this law shall be evaded or circumvented by diverting parcels exceeding the prescribed limits of size and weight from first class offices and mailing the parcels at offices of the second, third or fourth class or on rural or star routes.

AIDS TO PROPER MAILING

Write name and address plainly and completely.

Place name and address of sender on all matter.

Prepay postage fully on all letters and parcels.

Always address mail for city delivery to street and number, and request correspondents to do likewise.

Use designation North or South, East or West when it is a proper part of the address and save delay in delivery.

Insure valuable parcels except those containing small articles of considerable value which should be registered.

Wrap parcel post carefully in heavy paper and tie knots securely.

You will often gain a day's time in delivery by depositing mail as soon as it is ready.

Use Postal Unit numbers on mail addressed to cities where Unit Numbers are required.

HILL'S WILMINGTON

Directory of Householders, Occupants of Office Buildings and
Other Business Places, Including a Complete
Street and Avenue Guide

1956

Including Audubon, Devon Park, Edgewood, Foxtown, Garden City,
Hanover Heights, Highwood Park, Idlewild, Long Leaf Hill,
Oak Court, Oak Crest, Piney Woods and Winter Park.

Copyright, 1956, by Hill Directory Co., Inc.

In the following list the numbered streets are arranged in numerical order followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both side of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol @ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers, as supplied to us on our canvass are shown opposite names. Figures in parenthesis denote old numbers.

(The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.)

(This section includes some listings reading "No Return." In each case the Publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.)

A STATEMENT OF ADVERTISING PRINCIPLES

1. Good Advertising ~ aims to inform the consumer and help him to buy more intelligently.
2. Good Advertising ~ tells the truth, avoiding misstatement of facts as well as possible deception through implication or omission. It makes no claims which cannot be met in full and without further qualification. It uses only testimonials of competent witnesses.
3. Good Advertising ~ conforms to the generally accepted standards of good taste. It seeks public acceptance on the basis of the merits of the product or service advertised rather than by the disparagement of competing goods. It tries to avoid practices that are offensive or annoying.
4. Good Advertising ~ recognizes both its economic responsibility to help reduce distribution costs and its social responsibility in serving the public interest.

Features and Departments of a City Directory

Your new, improved City Directory is the most complete and comprehensive catalog ever published of the inhabitants, business concerns and institutions of your city. It is much more than just an alphabetical list of names and addresses.

Your City Directory Contains:

1 An *Alphabetical* list of names and addresses of every resident, business concern and institution, plus wife's name and if a widow the deceased husband's initial, and the occupations of all. Principal officers or owners and a description of businesses are included as well.

2 A *Householders' Directory* including a Street and Avenue Guide. This section lists every street and where intersecting streets appear. It lists numerically every location on each street, naming the householder or business at each number and whether the person is a homeowner or renter and if he has a telephone. Similar information is provided on office and public buildings and their occupants.

3 A *Classified Business Directory*—listing every business, classified as to type, and showing names and addresses. It also lists every profession, club, society and association, hospital and cemetery, labor organization, library park and playground and school.

4 A "Yellow Section" or *Buyers' Guide*, where the advertiser may explain in greater detail the services or products he has to offer.

5 A *Statistical and Historical Story* of your city; plus miscellaneous other information.

When You Want to Know:

- where a person lives.
- what his occupation is.
- who lives at a certain number on a street.
- where a street is located.
- the correct spelling of a name.
- the officers of a corporation.
- the partners in a firm.
- the solution to any of scores of problems that pop up unexpectedly to annoy and baffle you.
- you can quickly find the answer in the City Directory.**

Power of Advertising

THE CITY DIRECTORY is the power that generates information for the buyer that he may know who deals in the product he wishes to purchase. If your business is not classified properly, and a display advertisement arranged to describe your business; how can you expect the buyer to trade with you?

ADVERTISING is the foundation upon which successful businesses are built. You must apply this to your own particular business.

ADVERTISING is the power of an idea multiplied.
